Accessibility standards and regulations

The EN 301 549 and WCAG 2.1 AA standards were created by the European Union within Mandate 376 for use as the basis for an online toolkit for public procurement of Information & Communication Technology (ICT) products. The standard specifies the functional accessibility requirements applicable to ICT products and services, together with a description of the test procedures and evaluation methodology for each accessibility requirement.

Akhter Computers Ltd is able to provide an EN 301 549 product conformance report on demand. Check with the Sales and Technical Support to request a report.
